

TO: Brooke T. Paup, Chairwoman
FROM: Nicole Campbell, Internal Audit Director
DATE: February 22, 2022
SUBJECT: Implementation Status of Audit Recommendations

This semi-annual report provides the status of management's efforts in addressing internal and external audit issues and recommendations.

The Internal Audit Division uses TeamCentral, a web-based database, to track and monitor the implementation status of issues and recommendations resulting from internal and external audits, reviews, and oversight activities. Implementation status is reported in TeamCentral by the individuals identified as responsible for implementing each recommendation. On a semi-annual basis, Internal Audit performs follow-up audit work to validate the implementation status of corrective actions taken in response to significant audit recommendations and/or related control issues.

This status report covers fiscal year 2012 through February 22, 2022. The implementation status for a total of 284 recommendations have been tracked in TeamCentral since fiscal year 2012. As of February 22, 2022, the following activity has occurred:

- 16% (45 of 284) of the total audit recommendations are pending, and
- 84% (239 of 284) of the total audit recommendations have been implemented.

The attached table shows the number of audit recommendations by project name that have been implemented or were in progress, as of February 22, 2022.

We appreciate management's efforts in addressing the audit issues, and in improving the agency's control environment.
