

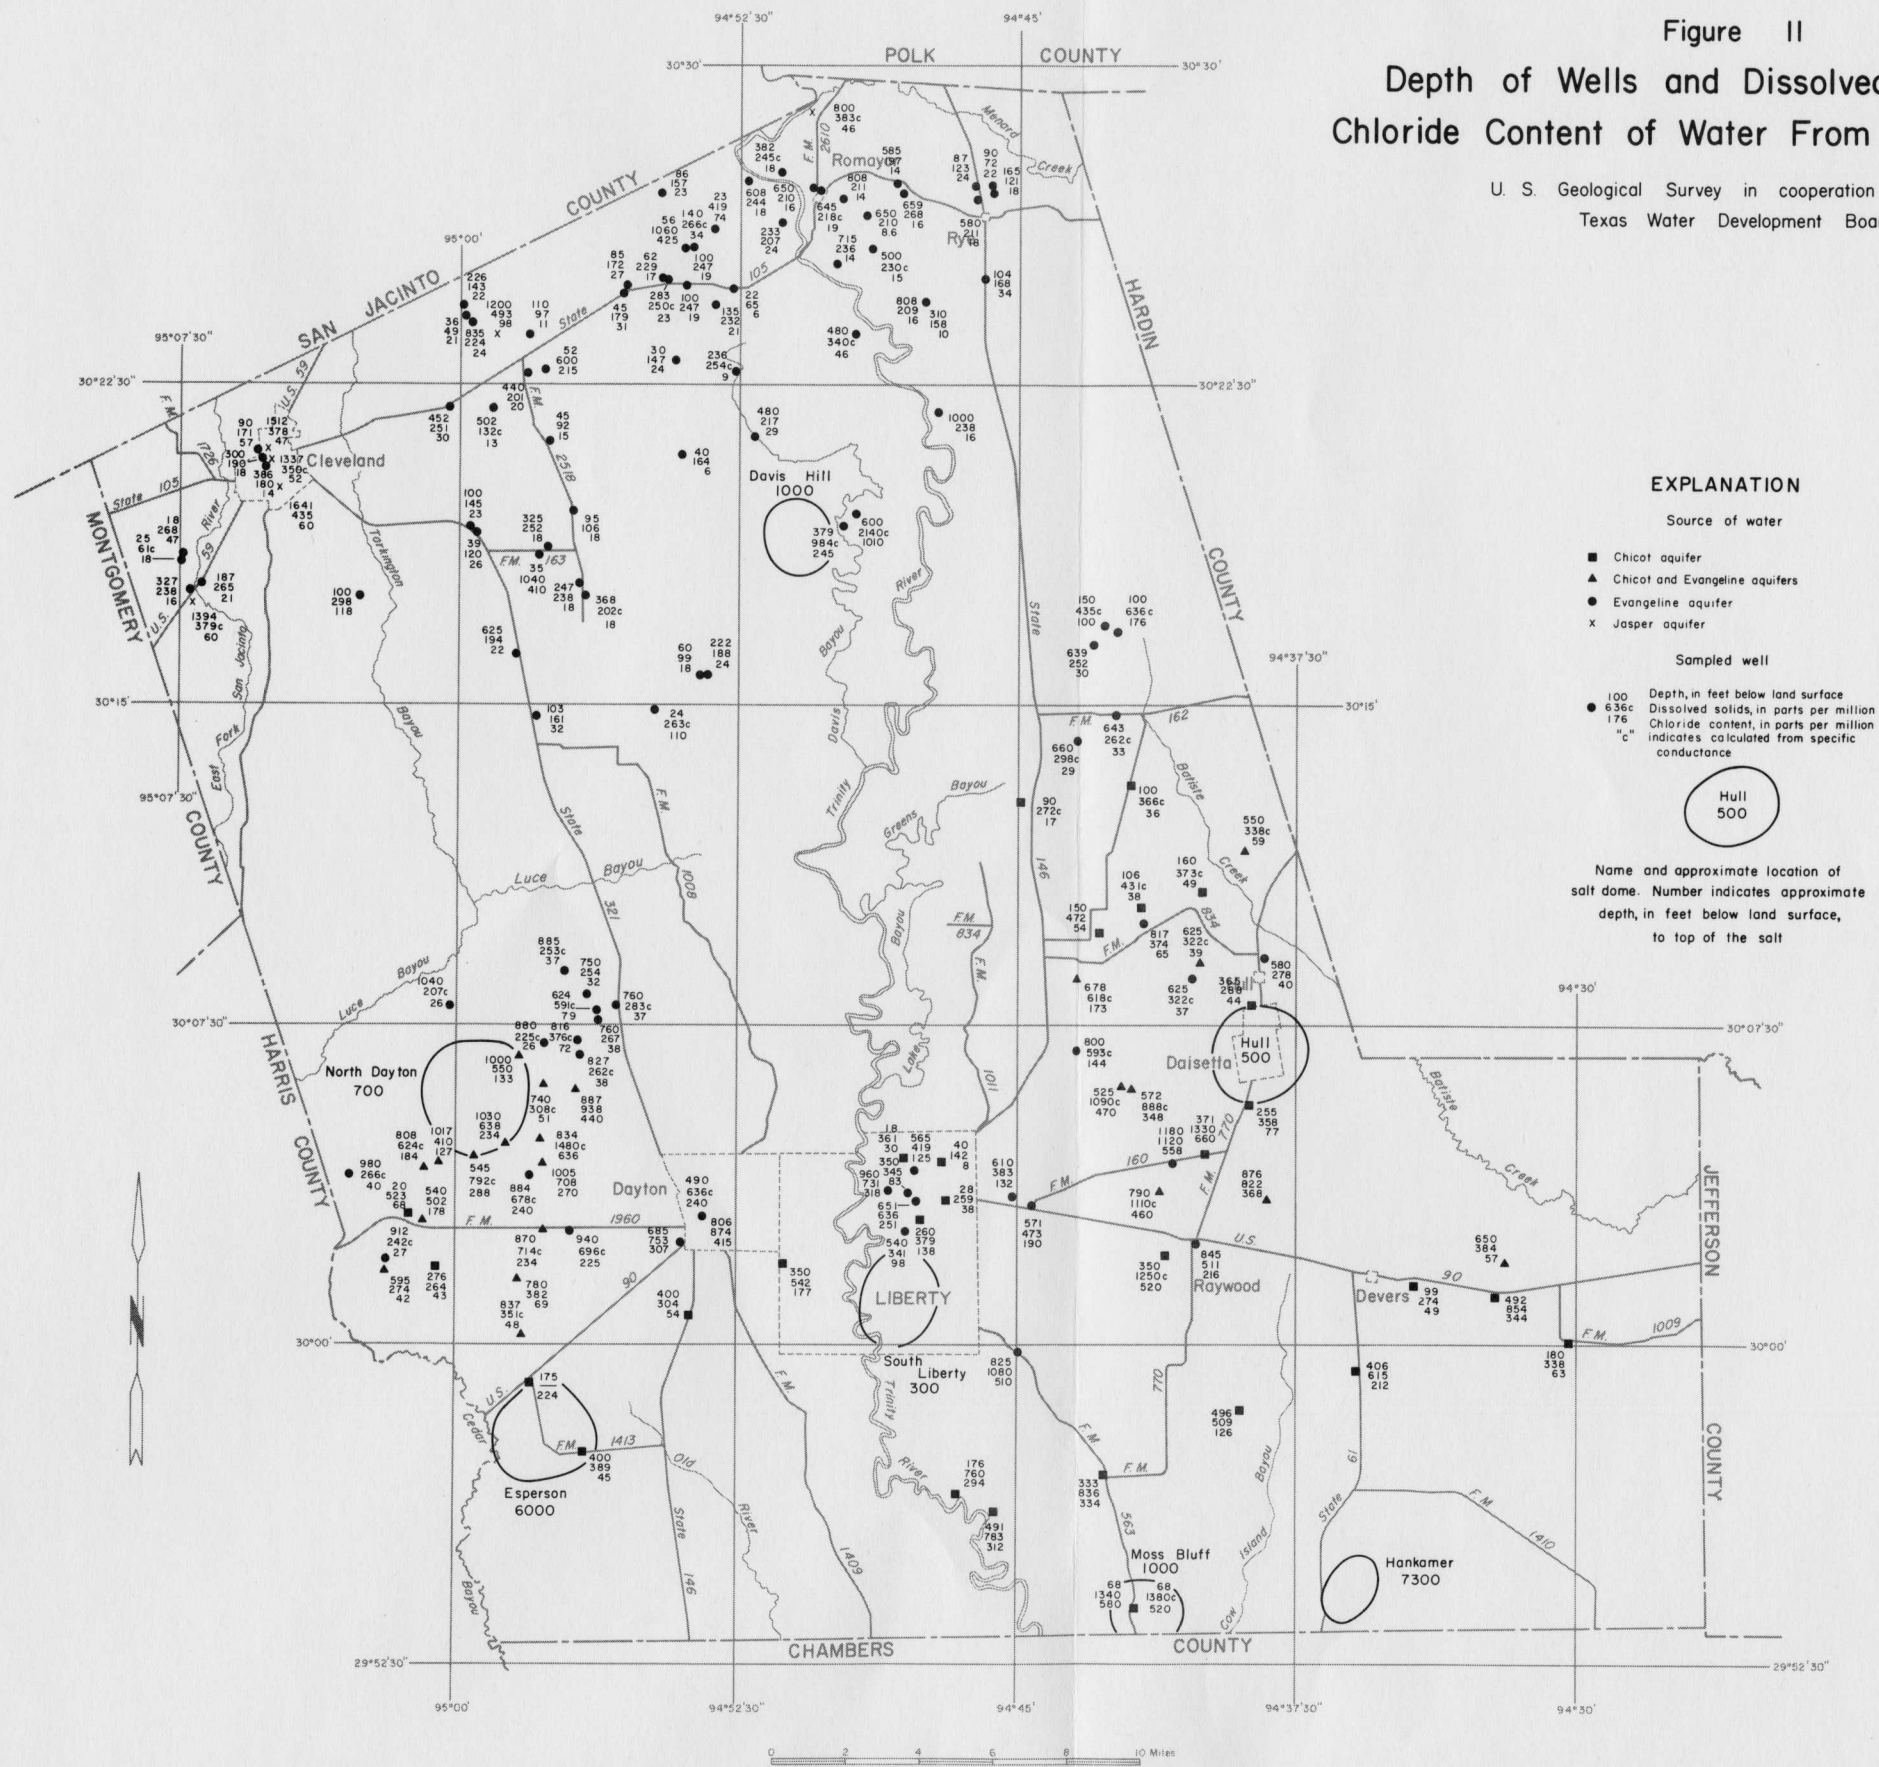

Figure II
 Depth of Wells and Dissolved Solids and
 Chloride Content of Water From Selected Wells

U. S. Geological Survey in cooperation with the
 Texas Water Development Board

EXPLANATION

Source of water

- Chicot aquifer
- ▲ Chicot and Evangeline aquifers
- Evangeline aquifer
- x Jasper aquifer

Sampled well

- 100 Depth, in feet below land surface
- 636c Dissolved solids, in parts per million
- 176 Chloride content, in parts per million
- "c" indicates calculated from specific conductance

Name and approximate location of salt dome. Number indicates approximate depth, in feet below land surface, to top of the salt
